OUR GOALS

Socketed | Devo Shift | Portable | Folding | Training | UPVC | Accessories

FIRST CHOICE FOR FLEXIBLE SERVICE

DESIGNED TO LAST A LIFETIME

Football goals are a big investment and we understand that. With over 20 years of industry experience and vast product knowledge, we design, manufacture and supply top quality sports equipment to clubs, schools and colleges across the UK. Our extensive range of goals and goal accessories are all built to last.

ENGINEERING EXCELLENCE

All of our football goals are manufactured by us right here in the UK, to the highest standards. Because of this not only can we deliver the highest quality products, we can also create bespoke items if you have any specific needs. We're proud to also offer a wide range of British Standards compliant portable goals and easy-to-assemble folding goals.

DEVO SHIFT PORTABLE BOX GOALS

100mm Aluminium

- Developed with feedback and testing from Premier League clubs, this product provides you with ultimate mobility when it comes to football goals
- With its unique locking system that enables the goal to be lifted and lowered instantly
- Once the goal is raised, it can be moved in ANY direction, meaning goals can be removed from pitches and stored where a gated entrance has prevented this before
- Featuring plastic-coated handles, fully-moulded HDPE covers and multi-directional movement
- Supplied in pairs
- Uprights, runbacks and crossbar – 100 × 110mm reinforced aluminium
- Powder-coated white
- This goal conforms to BS EN 748 and BS EN 16579

Sizes available

- 24×8ft**, Goal Code: FOT-600FDS, Net Code: FOT-053C – **11-a-side**

UPVC GOALS

MATCH GOAL

UPVC

Goal features:

- A precise locking system throughout the goal adds strength to the frame – this goal will easily tolerate shots from an adult
- Constructed using high impact shatterproof uPVC material with robust corners and connectors
- Extra heavy-duty net, 2.5mm twine thickness with 100mm x 100mm squares – this net meets the new head entrapment safety guidelines
- Quality-assured – this goal is independently tested to a European standard – EN16579
- Leave this goal assembled all year round, in all weathers – absolutely no maintenance required
- Supplied with fastclips which are very efficient when securing the net on or off, even in cold climates
- This goal will not move – once anchored down, the sturdy metal ground anchors will keep the goal rigid, even with the strongest of shots – the metal anchors measure 8mm diameter and 10" long
- Assemble your goal by following our simple step by step instructions.
- Actual goal weight – 21kgs

Goal includes:

- Net
- Net clips
- Carry bag
- Metal ground anchors
- Locking system

TEAM SHELTERS & DUGOUTS

DESIGNED FOR COMFORT

Our team shelters and dugouts are built to keep players and coaches dry, comfortable and focused, no matter the conditions. Suitable for football, rugby, hockey and more, they're trusted by clubs at every level, from grassroots to elite competition. With fixed and portable options available, we offer flexible solutions tailored to your pitch setup and matchday needs.

BUILT FOR PERFORMANCE

Whether you choose aluminium or steel, our shelters are designed with durability and style in mind. All of our shelter frames come powder-coated in white as standard, with custom colours available at no extra cost. The curved roof design offers enhanced protection from the elements, while options like spira-lock anchors and weight plates add extra security.

FINISHED YOUR WAY

From 5-a-side to full-size squads, we offer a range of sizes to suit your team. Add a professional finish with premium bucket seats in a colour of your choice and match the frame to your school or club colours. Need a replacement? We've got you covered with spare roof and back panels always available.

Order online at markharrod.com or call 01785 594421

FUTNET

Football Tennis (FutNet), also known as futnet (in Czech and Slovak nohejbal and Soccer Tennis USA), is a sport played with a football. The sport is played indoors or outdoors on a court divided by a low net with two opposing teams made up of one, two or three players, who try to score a point by hitting the ball with any part of their body except for the hands and making it bounce in the opponent's area in a way that makes it difficult or impossible for the other team to return it over the net.

PREMIUM HEAD TENNIS - HEAVY DUTY

100mm Aluminium

- Bases constructed from zinc-plated heavy duty steel
- 100mm black powder-coated aluminium upright (available in other colours please call prior to ordering)

MULTI DIRECTIONAL FOOTBALL GOAL TROLLEYS

- Manufactured from heavy-duty steel
- Zinc-plated to prevent rust/corrosion
- Low profile design requires user to only lift the goal 350mm from ground
- The low-slung base carries the goal at 100mm from the ground to create the lowest centre of gravity possible
- Powder-coating available at extra cost (please call)
- Supplied with rotating castors and puncture-proof 260mm wheels
- Locking bars to prevent the goal from sliding from the trolley when moving
- Suitable for use with our 100mm aluminium football goals
- Supplied with 2 trolleys
- Code: FOT-090

CORNER TARGETS TOP BINS X2

- Set of 2
- High impact resistant

FIXINGS & MAINTENANCE

All spare parts from a crossbar to a single washer available for your ease here.

DELIVERY AND MAINTENANCE

UNRIVALLED DELIVERY TIMES

Small items: delivery within 1-3 working days.

Large items: delivery within 2-3 weeks.

We call 2-3 days in advance to notify you of your delivery date and our drivers call within the hour before, to ensure someone is available to take delivery. We also offer fitting with delivery.

MAINTENANCE SUPPORT

We offer maintenance and servicing support to ensure your equipment stays safe for years to come. This includes inspections to check that your equipment is being installed and maintained correctly to avoid injury and product damage. Following an inspection, we will ascertain safety levels and identify any maintenance needed. To complete the service we can make any necessary repairs, to help you operate at specified safety standards.
